Publisher Editor

Lynn, MS, Beijing, China

Production Editor

Hemavathy Muralitharan, BS, New Dehli, India

Past Editors

Arthur J. Moss, M.D., Rochester, USA (deceased) (1996–2011)

Shlomo Stern, M.D., Tel Aviv, Israel (deceased) (1996–2011)

Associate Editors

Borje Darpo, M.D., Stockholm, Sweden

Ilan Goldenberg, M.D., Tel Aviv, Israel

David Huang, M.D., Rochester, NY

Pyotr Platonov, M.D., Ph.D., Lund, Sweden

EDITORIAL BOARD

Section Editors

ARRHYTHMIAS:

Adrian Baranchuk, Kingstone, ON, Canada

BIOENGINEERING:

Jean-Philippe Couderc, Ph.D., Rochester, NY, USA

DEFIBRILLATION/RESYNCHRONIZATION:

Jonathan Steinberg, M.D., New York, NY, USA

ELECTROCARDIOGRAM:

Victor Froelicher, Jr., M.D., Palo Alto, CA, USA

EXERCISE ECG:

Paul Kligfield, M.D., New York, NY, USA

International Editors

Fabio F. Badilini, Ph.D., Montichiari, Italy

Alon Barsheshet, M.D., Tel Aviv, Israel

Axel Bauer, MD, Munich, Germany

Antonio Bayés-de-Luna, M.D., Barcelona, Spain

Yochai Birnbaum, MD, Houston, TX, USA

Hendrik Bonnemeier, M.D., Ph.D., Kiel, Germany

Laura Burattini, Ph.D., Ancona, Italy

Hugh Calkins, M.D., Baltimore, MD, USA

Philippe Chevalier, M.D., Lyon, France

Iwona Cygankiewicz, M.D., Ph.D., Lodz, Poland

Sergio Dubner, M.D., Buenos Aires, Argentina

Jerzy Krzysztof Wranicz, M.D., Ph.D., Lodz, Poland

Niraj Varma, M.D., Cleveland, USA

Information for subscribers: The ANNALS OF NONINVASIVE ELECTROCARDIOGRAPHY is published in 6 issues, i.e. bimonthly per year. Institutional subscription prices for 2019 are:

Online: US\$613, US\$924 (Rest of World), €603 (Europe), £473 (UK). Prices are exclusive of tax. Asia-Pacific GST, Canadian GST/HST and European VAT will be applied at the appropriate rates. For more information on current tax rates, please go to <https://onlinelibrary.wiley.com/library-info/products/price-lists/payment>. The price includes online access to the current and all online back files to January 1st 2015, where available. For other pricing options, including access information and terms and conditions, please visit <https://onlinelibrary.wiley.com/library-info/products/price-lists>. Terms of use can be found here: <https://onlinelibrary.wiley.com/terms-and-conditions>

Delivery Terms and Legal Title: Where the subscription price includes print issues and delivery is to the recipient's address, delivery terms are **Delivered at Place (DAP)**; the recipient is responsible for paying any import duty or taxes. Title to all issues transfers Free of Board (FOB) our shipping point, freight prepaid. We will endeavour to fulfil claims for missing or damaged copies within six months of publication, within our reasonable discretion and subject to availability.

Publisher: The ANNALS OF NONINVASIVE ELECTROCARDIOGRAPHY is published by Wiley Periodicals, Inc., 350 Main Street, Malden, MA 02148; Telephone: 781 388 8200; Fax: 781 388 8210.

Journal Customer Services: For ordering information, claims and any enquiry concerning your journal subscription please go to <https://hub.wiley.com/community/support/onlinelibrary> or contact your nearest office.

Table of Contents

ORIGINAL ARTICLES

The presence of atrial fibrillation in Takotsubo cardiomyopathy is predictive of mortality: Systematic review and meta-analysis

Narut Prasitlumkum, Veraprapas Kittipibul, Nath Limpruttidham, Pattara Rattanawong, Pakawat Chongsathidkiet and Thosaporn Boondarikpornpant..... e12566

SCN5A mutation status increases the risk of major arrhythmic events in Asian populations with Brugada syndrome: systematic review and meta-analysis

Pattara Rattanawong, Jirat Chenbhanich, Poemlarp Mekraksakit, Wasawat Vutthikraivit, Pakawat Chongsathidkiet, Nath Limpruttidham, Narut Prasitlumkum and Eugene H. Chung e12589

Combining noninvasive risk stratification parameters improves the prediction of mortality and appropriate ICD shocks

Bert Vandenberg, M. Juhani Junntila, Tomas Robyns, Christophe Garweg, Joris Ector, Heikki V. Huikuri and Rik Willems..... e12604

Association between serum cotinine levels and electrocardiographic left atrial abnormality

Affan Irfan, Yabing Li, Aruni Bhatnagar and Elsayed Z. Soliman..... e12586

Comparison of the prognostic role of Q waves and inverted T waves in the presenting ECG of STEMI patients

Kimmo Koivula, Kjell Nikus, Juho Viikilä, Jyrki Lilleberg, Heini Huhtala, Yochai Birnbaum and Markku Eskola e12585

An investigation on the influence of yogic methods on heart rate variability

Sengottuvel Senthilnathan, Rajesh Patel, Mariyappa Narayanan, Gireesan Katholil, Madhukar Pandurang Rao Janawadkar, Thimmakudy Sambasiva Radhakrishnan and Krishna K. Sharma e12584

Pediatric noncompaction patients with high spatial QRS-T angles are at increased risk for ventricular tachycardia

Daniel Cortez, Nandita Sharma and Jason R. Imundo e12588

(continued)

Table of Contents

Twenty-four-hour ambulatory ECG monitoring relevancy in myotonic dystrophy type 1 follow-up: Prognostic value and heart rate variability evolution Alexandre Gamet, Bruno Degand, François Le Gal, Nicolas Bidegain, Anne Delaubier, Brigitte Gilbert-Dussardier, Luc Christiaens and Rodrigue Garcia	e12587
Fragmented QRS as a predictor of in-hospital life-threatening arrhythmic complications in ST-elevation myocardial infarction patients Tanawat Attachaipanich and Rungroj Kittayaphong	e12593
Ischemic QRS prolongation as a biomarker of myocardial injury in STEMI patients Jakob Almer, Viktor Elmberg, Josef Bränsvik, David Nordlund, Ardavan Khoshnood, Michael Ringborn, Marcus Carlsson, Ulf Ekelund and Henrik Engblom	e12601
CASE REPORTS	
Arrhythmic manifestation of peripartum cardiomyopathy—Case report Ptryk Siedlecki, Małgorzata Kurpesa, Barbara Uznańska-Loch, Ewa Trzos and Jarosław Damian Kasprzak	e12551
The nightmare ECG of a spontaneously aborted sudden cardiac death Giovanni Coluccia, Raffaele Punzi, Silvia Polini, Concetto La Rosa and Mariano Rillo	e12547
A novel use of cardiac resynchronization therapy-defibrillator device in hypertrophic cardiomyopathy Serkan Cay, Ozcan Ozeke, Firat Ozcan, Dursun Aras and Serkan Topaloglu	e12559
Acute inferior myocardial infarction with right ventricular involvement and several clinical-electrocardiographic markers of poor prognosis Javier García-Niebla, Andrés Ricardo Pérez-Riera, Raimundo Barbosa-Barros, Jorge Díaz-Muñoz, Rodrigo Daminello-Raimundo, Luiz Carlos de Abreu and Kjell Nikus	e12592

The International Society for Holter and Noninvasive Electrocardiology (ISHNE) was created in 1988 as an organized effort by non-invasive electrocardiology methods experts from all around the world dedicated to the study and treatment of cardiac rhythm disorders, myocardial ischemia, and all other forms of heart disease identifiable by these methods, and to provide a forum for those interested in research and patient care in this field. It has a membership of physicians and associated health professionals worldwide and plays an important role in the education and research field.

1.- SCOPES OF *ISHNE*:

The Society is dedicated to the following aspects related to the field of diagnosis and treatment of all forms of heart disease in which non-invasive electrocardiology can be used:

- a) Promoting basic, clinical and population-based research.
- b) Providing a forum for presentation and discussion of basic, clinical and population-based research.
- c) Improving education and training of physicians, technicians, nurses and other health care providers through special programs, publications and other tools related to the field.
- d) Encouraging primary and secondary preventive measures to reduce the incidence of sudden death and other heart diseases.
- e) Serving as a resource for government, private industry and health care providers to facilitate the establishment of programs and policies that will better serve the patient.
- f) Working toward enhancement of quality and duration of life in those patients at high risk of sudden death, post-resuscitated ones and with other conditions related to the Society scopes.

2.- HIGHLIGHTS OF *ISHNE*'s PRESENT ACTIVITY:

- a) **Biennial International Congress:** A Biennial International Congress is held every two years in different countries (Argentina 2003; Turkey 2000; Germany 1998; Japan 1996; USA 1994 and so on) for which abstracts are solicited. The most common topics are: ischemic heart disease, cardiac arrhythmia, new technologies, heart rate variability, signal averaging and the impact of drugs and devices in the sudden death problem.
- b) **Awards:** *ISHNE* presents the Senior and Junior Investigator Awards to scientists that made important contributions in the related fields and the Holter Award, in memory of Normal Holter.
- c) **Educational Program:** Important international educational activities take place yearly, mostly related to all major cardiological meetings around the world, such as ACC, AHA, ESC, Cardiostim and the *ISHNE* Biennial Congress. Also local educational activities are organized worldwide.
- d) **Journal:** The *Annals of Noninvasive Electrocardiology* is *ISHNE*'s official Journal that is published quarterly with Peer reviewed papers and the most updated information on new diagnostic and therapeutic knowledge in cardiac arrhythmias and the noninvasive electrocardiology field.
- e) **Membership:** Open to all qualified physicians and scientists involved in the fields related to *ISHNE*'s activity. Members have free registration in all Society educational programs, have a reduced fee for the Biennial Congress and receive ***The Annals of Noninvasive Electrocardiology*** with a 10% discount. An elegant Membership Certificate will be sent upon acceptance of your application.

**Mail or Fax the completed Membership Application Form with your payment to:
Office of the Treasurer,**

INSTRUCTIONS FOR AUTHORS

The **Annals of Noninvasive Electrocardiology (A.N.E.)** welcomes original and review manuscripts involving laboratory and clinical studies related to this topic area. Original manuscripts, review articles and editorial communications should be submitted to the **A.N.E.** Editorial Office online at: <http://mc.manuscriptcentral.com/ANEC>. Other contacts: Wojciech Zareba, MD, PhD, **A.N.E.** Editor-in-Chief, University of Rochester Medical Center, 265 Crittenden Blvd., CU 420653, Telephone: (585) 275-5391, Fax: (585) 273-5283.

GENERAL INFORMATION

Manuscripts submitted to this journal must not be under simultaneous consideration by any other publication and should not have been published elsewhere in substantially similar form. The letter of submission must so affirm. No part of a paper that has been published by **A.N.E.** may be reproduced or published elsewhere without the written permission of the author(s) and the publisher.

The author(s) is responsible for all material presented in a manuscript. **A.N.E.** disclaims all responsibility for such material. No product or service advertised in this publication is guaranteed or warranted either by the editor(s) or publisher. Neither the editor(s) nor Publisher guarantees any claims made by a manufacturer or an author in regard to a project or service.

Note to NIH Grantees

Pursuant to NIH mandate, Wiley Blackwell will post the accepted version of contributions authored by NIH grant-holders to PubMed Central upon acceptance. This accepted version will be made publicly available 12 months after publication. For further information, see www.wiley.com/go/nihmandate.

Conflict of Interest

Authors must disclose any associations that may pose a conflict of interest concerning the submitted article. For employees of a commercial or industrial organization that identification will suffice. If part of a non-commercial author group the commercial/industrial author's individual affiliation should be acknowledged. Sources of funding for the work should be listed on the title page.

Employees of industry may not evaluate or comment about the products of a competitor. A commercial name should not be part of a manuscript file. Authors should make no claims of priority in their manuscripts.

Medical Ethics

All author(s) will be responsible for the ethical and accurate human and/or animal data in the manuscript.

A manuscript that involves patients will not be considered for publication if a medical practitioner is not an author. Similarly, an animal study will not be considered for publication if a medical or veterinary practitioner is not an author.

Trademarks

If a trademarked or registered item is named, the name(s) and address(es) of the manufacturer(s) or supplier(s), in addition to the generic name, should be supplied.

MANUSCRIPT PREPARATION

Online submissions: follow the directions in <http://mc.manuscriptcentral.com/ANEC>. These do not supersede the general style and formatting detailed below. Please prepare the manuscript file as you would a paper copy for review with a title page, abstract, complete text, tables, figure legend, figures and reference all together in a single electronic file before uploading.

Title Page

Some of the following will be duplicated in the electronic submission. Include full name(s), degree(s), and affiliation(s) of author(s); list under title. Include affiliation of a commercial or industrial employee.

Provide a running title of 3 to 4 words.

At the bottom of the page, include information about financial support, i.e., grants, if applicable.

Address for reprints: followed by full name, mailing address, telephone and telefax numbers; and e-mail address.

Abstract

Abstract should be after title page and numbered page 1. The abstract should be structured with the following headings: Background, Methods, Results, and Conclusions.

Abstract should not exceed 250 words. At the end of the abstract, provide a maximum of 6 key words suitable for indexing.

Standard abbreviations should be used for all measurements (see "Style Manuals").

Text

The text should follow the abstract and begin on a new page, as should references, legends, and tables. The text should include the following main headings: Methods, Results, and Discussion. Do not use a separate heading for Introduction.

Abbreviations should be minimized. Those used should be defined when they first appear; afterwards they may be used.

References should be cited in numerical order, as should tables and figures. Only written Personal Communications may be referenced, and they must be available upon request. Unpublished data may not be used, and reference should not be made to abstracts.

As a guide for manuscripts, there should be no more than one figure or table for every 750 words. The manuscript should not exceed 6000 words.

References

List all sources in the reference list alphabetically by name. In text citations should follow the author-date method. This means that the author's last name and the year of publication for the source should appear in the text, for example, (Jones, 1998), and a complete reference should appear in the reference list at the end of the paper.

References are styled according to the sixth edition of the *Publication Manual of the American Psychological Association*. A sample of the most common entries in reference lists appears below. Please note that for journal articles, issue numbers are not included unless each issue in the volume begins with page one.

Journal Article

Phelps, L. (1996). Discriminative validity of the WRAML with ADHD and LD children. *Psychology in the Schools*, 33, 5-12.

Electronic Journal Article

Meiser K, Jordaán P, Latypova S, Darpo B. Comparing QT interval variability of semiautomated and high-precision ECG methodologies in seven thorough QT studies - implications for the power of studies intended for definitive evaluation of a drug's QT effect. *Ann Noninvasive Electrocardiol* 2017; 22: e12416

Book Edition

Bradley-Johnson, S. (1994). Psychoeducational assessment of students who are visually impaired or blind: Infancy through high school (2nd ed.). Austin, TX: Pro-ed.

References should refer only to material listed within the text.

Tables

Should supplement not duplicate the text.

Should be numbered consecutively in order of appearance in the text.

Each must be given an Arabic numeral and a title, placed at the top of the page.

Abbreviations used in a table should be footnoted and explained in alphabetical order.

Any material that is not self-explanatory should be footnoted.

Submit written permission from publisher(s) and author(s) for any table that has been published previously.

Legends

Each figure should have a corresponding legend that should not duplicate the text.

Identify all abbreviations used in a figure at the end of each legend.

Use standard abbreviations for measurements.

Figures

Electronic submissions: note acceptable formats. More information can be found at <http://authorservices.wiley.com/bauthor/>.

Black and white illustrations are published without charge to the author. Special arrangements for color illustrations must be made with the publisher at a cost of \$850 (US) per page (one side).

Submit written permission from publisher(s) and author(s) for any figure that has been published previously.

Photographs in which a patient or other person is identifiable must have his/her written permission available.

The consent must state specifically what the person is consenting to and what restrictions, if any, the person has placed upon the publication of the photograph. All restrictions must be strictly observed.

Case Reports

Electronic submissions. A case report may not exceed 6 pages, including all typed material (text, references, legends, tables, etc). The abstract for a case report should not exceed 100 words. Reports about one or two cases will be defined as a "case report".

Letters to the Editor

Electronic submissions. Letters should not exceed 500 words even if describing a clinical or scientific event. The usual **A.N.E.** format will prevail. In most instances a letter should be about a specific article that appeared in **A.N.E.** A response will be solicited from those authors.

Style Manuals

The following is a guide to writing scientific papers and provides standard abbreviations for measurements and other scientific terms: CBE Style Manual, prepared by the Committee on Form and Style of the Council of Biology Editors, the American Institute of Biological Sciences, Arlington, VA, 1978.

The manuscript should also follow "Uniform Requirements for Manuscripts Submitted to Biomedical Journals, 3rd Edition." *Ann Intern Med* 1988; 108:258-265 and *Br Med J* 1988; 296:401-405. Where uniform requirements differ, the **A.N.E.** instructions prevail. The APA Style Manual is a useful reference.
